H&Z Contracting Trading & Services

COMPANY PROFILE -2018

اتش اند زد كونتراكتينغ ترايدينغ اند سيرفسييس
H&Z Contracting Trading & Services

Our Mission

Our mission is to create and establish a diversified business entity for Contracting, Trading & Services which is based on trust and credibility and is known for its transparent approach to the business ethics.

Our Vision

Our vision is to create and establish a diverse business entity to cater to the needs of Construction industry, Supply of Specialized items and Dedicated Services under one roof to contribute to the rising needs of the country in general.

- Superior workmanship leading to complete peace of mind to the client
- Timely delivery.
- Commendable business ethics.
- Added value to our clients.
- Specialised Service.
- Dedicated workforce

Our Divisions

H&Z Contracting Trading & Services operates following divisions.

1. Contracting Divison
2. Trading Division
3. M-Wall Qatar
4. Services Division

H&Z CONTRACTING DIVISION

About Us

H&Z Contracting, Trading & Services incorporated with a vision to provide complete peace of mind by offering, A comprehensive Building solutions, including Design and Build capability, the building solution are aimed to be most reliable in State of Qatar with not only quality of orkmanship but also with a clear guarantees of peace of mind to its clients and growth to its stake holders.

The founder, Engr. Zafaruddin Ahmad Khan, a civil engineering graduate with over 38 years hand on experience in the construction industry, and a polished business acumen, armed with wide experience in all kinds of buildings, including waste water treatment plants, sewage netwroks and pumping stations is also has vast experience in specialised Solutions, like Waterproofing and Specialized Structures.

H&Z Contracting Trading & Services was conceived, with able guidance of Sheikh Hamad Khalifa Al Khalifa by the same experienced team which boasts of some of the landmark and iconic buildings of Doha, Labour City (Mesaimeer), Salwa Garden, New Dewan Amiri Office Rayyan, Doha

South Treatment Works to name a few. Following are a few prestigious projects executed by our Managing Director.

Our Specialization

1. Commercial Buildings, Offices & Towers
2. Residential Buildings & Villas
3. Industrial Buildings, Warehouses & Garages
4. Institutional Buildings & Indoor & Outdoor Stadiums
5. Resorts & Spas
6. Sewage Pumping Stations & Treatment Plants
7. Electrical Substations

Labour City, Mesaimmer, Qatar

Health Safety & Environment Policy

With a team of highly qualified engineers and professionally trained work force, H&Z has set milestones for Contracting Companies, Trading Houe & Services outfit in its league. We strive to create better buildings, outstanding trading practice and remarkable Service Industry by keeping quality, Health, safety & environment regulations as our topmost priority, thereby adding our bit of efforts to the overall development of State of Qatar and its infrastructures.

Office Buildings in C-Ring & D-Ring Road, Doha, Qatar

Our Quality Policy

H&Z TRADING DIVISION

Introduction

H&Z Trading is a division of H&Z Contracting Trading & Services. Being run by our resident Technical Sales Head, Mr. Farhan Khan, who is an engineer by qualification and an absolutely brilliant sales person. Mr. Khan, driven by his nature to convince people and a diverse experience in multiple industries of trade has joined H&Z to ensure the division's excellence. H&Z Trading is in the perfect hands taking right manouvers to get to the top of the industry.

H&Z Trading is a proud Exclusive Distributor for the following brands.

1. Indar

Submersible pumps, manufactured in SPAIN is world's most advanced and biggest submersible pumps approved by Ashghal for its drainage and storm water pumping stations.

2. MMT Acoustix

Sound proofing and sound absorption material, like MMT Accoustic Foam, MMT Polyester Panel and MMT Accoustic baffles to name a few proven and accepted worldwide.

MMT Acoustix Manufactures Following Materials

- a. Acoustic Panels
- b. Acoustic padding material
- c. Sound proofing blankets
- d. Acoustic Fabric

H&Z Trading is a proud Owner of the following brands.

1. M-Wall Qatar

M-Wall, manufactured in Netherland and Ireland specially created with a unique concept of high-quality wall claddings consisting of several product ranges, like M-wall Hygienic, M-Wall Protect & M-Wall Design to name few, suitable for Hospitals & Hotels.

The company also deals in the products of the following brands

1. Netix Controls

- a. BTU Meters
- b. Water Meters
- c. Billing Software
- d. Energy Management Software
- e. Building Management System

Indar Electric, S.L.

Indar Máquinas Hidráulicas, S.L.

An Ingeteam Brand

Beasin, Spain

Indar
An *Ingeteam* brand

INDAR, founded in 1940, is a world leader in rotating electrical machines: motors, generators, and submersible pumps and motors. With a workforce of over 750 employees, INDAR competes with large multinationals in its field of activity.

With production plants in Milwaukee (USA), Mexico City, Beasain and Segorbe (Spain) and a sales network in over 45 countries, INDAR delivers tailor-made solutions in the fields of energy generation and stands out as a leading brand in hydroelectric generation, wind power generation, stationary power (generators for combustion engines), gas and steam (biomass, cogenerations, geothermal energy, etc.) as well as advanced electrical propulsion systems and plant generation for vessels.

INDAR offers assessment, technological development and delivery of solutions, that is, a fully comprehensive service for your projects. It is INDAR's philosophy to accompany its customer in a joint involvement on its challenges thanks to the efficiency of its machines their stiffness and the adaptability in its designs.

M-Wall

Eindhoven, Netherlands

M-Wall is a practical and cost-efficient high-end wall cladding that helps to create a hygienic, safe and attractive environment at all times.

M-Wall Hygienic is an active antibacterial wall finishing and protection made of 2-mm-thick smooth-embossed PVC. Following installation, M-Wall Hygienic provides long-term protection against impact and scratch damage to all your walls. Due to its very fine structure, the panel has a matte finish, is highly scratch-resistant and is very easy to clean. M-Wall Hygienic is specially developed for high care departments such as OT, clean-rooms, instrument preparation, central sterilization, drugs preparation, but as well in patient wards, corridors and storages.

M-Wall Protect is an innovative, efficient and cost-saving wall protection solution. This wall protector is made of polycarbonate and therefore PVC-free. This means that this wall protector meets the latest European fire classification B-s1, d0. M-Wall Protect has been specially developed for evacuation areas in public buildings such as airports, hospitals, schools, museums and shops.

M WALL
P R O T E C T

M-Wall Protect has been specially developed for evacuation areas in public buildings such as airports, hospitals, schools, museums and shopping centers.

The M-Wall Protect also has a very fine surface structure and therefore has a low gloss. The fine embossment ensures that the PC / ABS wall protection is scratch-resistant.

The M-Wall Protect wall protection has an extremely impact and scratch-resistant surface and has a high resistance to climate and aging influences. The wall protection does not become fragile and maintains its impact and scratch permanent properties over a longer period of time. M-Wall Protect wall protection also has a high chemical resistance. Also fats and oils will not affect the wall panels in any way.

M-Wall Design is an innovative designer wall covering concept. The unique wall panels create a dynamic atmosphere and give a unique atmosphere to the wall. Each design gives a unique pattern what creates a unique effect and atmosphere.

M WALL
D E S I G N

The designer panels are made of bamboo fiber. The bamboo fibers used are very strong, but not rigid, ensuring that the wall panels are lightweight and easy to install. Because the M-Wall Designs panels are 100% recyclable and biodegradable, they are with the current requirements placed on the sustainability and environmentally friendliness of the products to be used.

Once the wall has been covered in the M-Wall Design wall panels, they can easily be painted or sprayed any color required.

MMT Acoustix

Delhi, India

MMT ACOUSTIX™
When Noise Is Not An Option

MMT Acoustix® Acoustic Foam

MMT Acoustic Foam Panels are made from 100% polyurethane, technically given a designed shape for sound diffusion and absorption. The shape also gives an aesthetic look when paneled on the walls and ceilings. MMT Acoustix® are leading manufacturers of Acoustic Foam panels in Delhi, supplying the material in bulk all over India and globally. Our acoustic foam panels can be easily cut into small pieces and paneled on walls using adhesive.

MMT Acoustix® Acoustic Polyester Panels

MMT Acoustix manufactures acoustic boards and acoustic panels for walls and ceilings in India to control the echo and reverb, contributing to good and aesthetic environment. . To create the optimal sound environment for your interior space we have colored and lightweight acoustic panels for acoustics and soundproofing in India.

MMT Acoustix® Anechoic Chamber Wedges

MMT Acoustix® manufactures technical and industrial anechoic foam wedges for testing, musical, industrial and Quiet rooms. With deep wedges and sound absorbing quality, the sound is trapped, thus creating no reflection of the sound. The product is available in different colors and sizes.

Netix Controls

Helsinki, Finland

NETIX Controls has its roots in Finland and is a recognised leader in the development of Intelligent Building Management Systems and Metering Solutions. NETIX Controls combines engineering skills and an extensive knowledge about the needs and requirements of the global building automation systems and management systems industry to help create innovative solutions for any demanding requirement.

NETIX controllers are robust and the software is based on the Niagara Platform, which delivers sophisticated yet simple and scalable integration, using the latest technology and cloud based approach to make your operations more efficient and your facilities more secure.

Below are key features of NETIX IBMS Solution

- Software & Integration Controller powered by Niagara NX
- Multiple Protocol Connectivity
- Expandable Architecture
- Energy Dashboard, Facility Management & Billing software as add on modules
- Full range of Controllers ,Field Devices and BTU/Water metering products

The product is divided in following Categories.

- Multiple Building Connectivity with Different Systems at one Common Platform
- Remote Monitoring of Systems Via Internet and Mobile App.
- Water & BTU Metering Solution along with Billing as a Service.
- Energy Analytics with Facility Management.

Building Management System

Controllers for BMS

Our freely programmable Controllers apply the latest technologies and modern design, ensuring advanced controls and versatile functionality in complex control systems.

Compliant with Standards

Our Controllers are fully BACnet® compliant. Communication is based on the international ISO 16484-5 BACnet® standard. In addition, the Controller has two on-board RS-485 channels for BACnet MS/TP communication.

Flexible Selection of I/O

Several versatile Controller types with flexible I/O points are available to match the exact needs of your project. Controllers can also be easily amended with I/O Expansion Units.

Multiple Applications

Controllers are perfectly suited for any type of sophisticated controls, such as HVAC systems and other process controls. Any demanding application is easy to implement with our versatile Controllers.

Software

NETIX offers the unique Software Platform to integrate all technical systems in the building, creating the unified view for all users. Supporting all the most commonly used protocols, NETIX brings together BMS, GRMS, security and other building systems.

Generic Software Platform

NETIX Software Platform delivers sophisticated yet simple and scalable integration, using the latest technology and cloud based approach to make your operations more efficient and your facilities more secure.

Superior User Experience

It is all about services – and being extremely easy to use, simply using your Internet Browser. We bring you the full benefits of flexible integration, superior user experience and IoT driven services.

Integrated Systems

The NETIX Software Platform integrates all technical systems in the building to create the unified view for all users. Supporting all the most commonly used protocols, NETIX brings together BMS, GRMS, security and other building systems.

Field Devices

The selection of compliant sensors, actuators, panels, switches and accessories helps you to choose the needed elements for your solution.

System Components

Our selection of sensors, actuators, panels, switches, accessories and other peripherals is easily available to match the exact needs of your project.

Strict Quality Criteria

Our sensors, actuators and peripherals are produced complying with strict prequalification standards and quality assurance methods.

Component Library

We aim to provide the constantly expanding range of field devices and accessories to complement our offering – forming the full IBMS solution with proven quality.

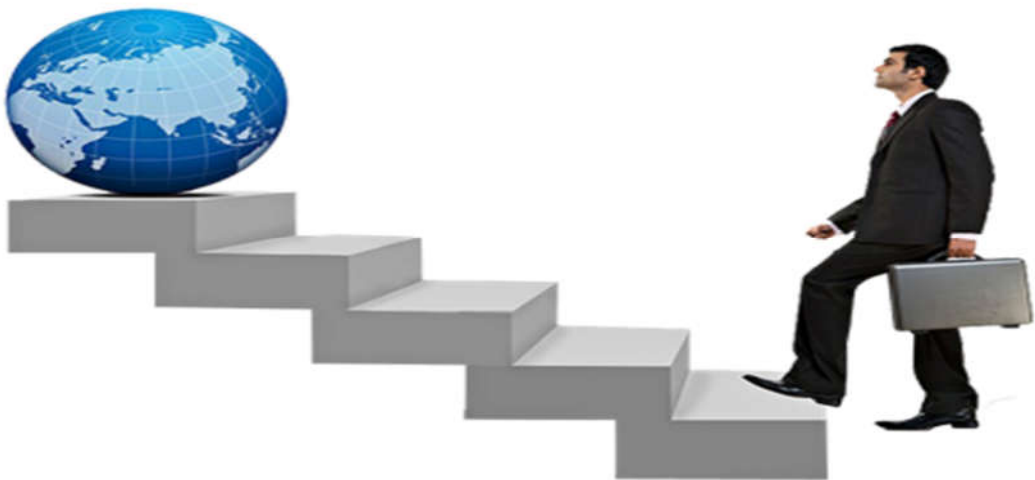

Netix Controls - Product Range

1. DDC Controllers
 - a. Universal DDC Controllers
 - b. IO Expansion Modules
 - c. FCU Controllers/Thermostats (BMS Communicating & Standalone)
 - d. VAV/CAV Controllers
2. Field Devices
 - a. Temperature Sensors
 - b. Temperature & Humidity Sensors
 - c. Air Quality Sensors (CO, CO₂)
 - d. Pressure Sensors & Switches
 - e. Liquid Level & Flow Switches & Sensors
 - f. BTU Meters & Water Meters
3. Others
 - a. Billing Software
 - b. BMS Front-end software and Alarm Software
 - c. Integration Controllers
 - d. Protocol Converters

H&Z SERVICES DIVISION

Introduction

H&Z Services is a division of H&Z Contracting Trading & Services. We have a fully developed Hospitality Section wherein we have been serving the select business house

1. Hospitality
2. Facility Management
3. Cleaning Services
4. Pest Control

1. Hospitality Section.
 - a. Event Managers
 - b. House Maids, Domestic Cleaners, Food handlers etc
 - c. Food Handlers.
2. Facility Management
 - a. General Facility Managers
 - b. General Maintenance of the Assets and real estate.
3. Cleaning Services
 - a. House Cleaning
 - b. Carpet & Furniture Cleaning
4. Pest Control
 - a. Pest & rodent control services
